- While electromagnetic weaponry has the capability to completely hijack perception, I do not advocate abandoning trust in your own perception, just awareness of fallibility

“What if they stalked someone with some big expensive campaign, and the target did not even notice it? To combat this they are controlling the perception of targets while being stalked, in essence designing the exact reaction the targeted individual has by controlling the perception and mind of the target while also orchestrating environmental factors that psychologically direct the targeted individual down an engineered path of thinking.”

## Neurobody<sup>[9]</sup>

Anytime you feel a body sensation signals are sent to the brain. Through these signals you feel what is happening to your body. - I coined the term neurobody in April 2016 to describe technology I have witnessed that induces internal body feedback in the form of any conscious variable
- Synthetic signals in the brain to produce vivid internal or external body experiences

- Any conscious variable can be applied to anywhere on the body
- Any concept in existence anywhere on the body

- I have really enjoyed blackness with these technologies
- Sensations external to one's body are able to be experienced
- Phantom pains, which can happen when a poor soul gets a limb cut off, are a natural evidence of external neurobody feedback, instead of pain it is any variable related to consciousness

- Cover stories have been established to conceal proliferation of remote influencing technologies
- To manipulate the enemy (the civilian population) into fruitless paths
- To create apathy / To suppress effective oppositional activity
- Demographics divided into left & right brain imbalances<sup>[14]</sup>
- To warp mind programming tied to language to align to the shadow government's agenda. e.g. How mainstream media has warped the public's NLP<sup>[15]</sup> related to the words "conspiracy theorist"
- Electronic control grid orchestrated psychological operations to discredit the credibility of a target or target demographic
- Misrepresentation of opposition is a primary ethos of military / intelligence psychological operations
- Misrepresentation of oppositional paradigms is a primary objective of modern psychological warfare
- Psychological operations are used as a stratagem to divide & conquer the opposition
- Setting up of chosen opposition has occurred
- Standard counter operations (counterintelligence) for potent individuals, truths, or paradigm shifts
- Black project science has provided shadow government war criminals superior knowledge, this superior knowledge is highly useful to derive disinformation from, partially because it is not yet known
- Electromagnetic mind control enables covertly controlled opposition
- Engineered events and/or media is demonstrably falsified in the public eye while targets oversimplify the falsified event into an area of truth (e.g. Sorcha Faal articles about a sensitive subject that associates that subject with "fake news", dailymail fake news articles about directed energy weapon truths strategically packaged as April Fools jokes, "Galactic Federation of Light" failed global contact predictions, can be used with false witness testimony in a case that is actually true, numerous other methods)
- Some so called journalists are nothing more than CIA shill mouthpieces, essentially psychological warfare operatives<sup>[20]</sup>
- To establish new age cover stories to be used for concealing electronic control grid symptoms
- To establish mental health paradigms engineered to cover up the targeted individual plight
- To establish extraterrestrial cover stories to be used for sensitive truths
- Disinform the open minded related to extraterrestrials (This has been weaponized versus the time when extraterrestrials actually do come forward)
- Information warfare aimed at contrasting negatively with deeper truth (i.e. weaponized against truth absorption)
- Disinformation designed to reorient from progressive paradigms to regressive paradigms
- Covert use of electromagnetic mind control to make a mockery of the general public or alt media, this provides a strategic elitist secret society environment of superiority

- Government access to true extraterrestrial contact with beings from our galaxy provides potent psychological warfare data. (e.g. highly intelligent occult data)
- What I call 'mk-special': This can be to discredit the target or to appease their ego. e.g. Use of flattery with mind control assets by their handlers and/or use of discrediting techniques like persuading them they were a notable person in past lives
- Creating an environment where alt media appears absurd to the mainstream, gives a sample of irrationality to over-simplify to all conspiracy believers
- Belief systems have been engineered to look irrational to one another
- The CIA appears to have the desire to co-opt just about everything
- The CIA employs overzealous weaponization of everything possible

“It’s not a matter of what is true that counts, but a matter of what is perceived to be true.” ~Henry Kissinger

## New Age Psychological Operations<sup>[16]</sup>

- Information warfare over people's perception of reality
- Control of the opposition has been achieved with false light information sources
- New age psychological warfare aimed to obfuscate the truth and control the opposition in an internet age
- Alt media has been co-opted via electromagnetic mind control & other directed energy weapon methods
- Promotes apathy by presenting the idea of an ascension shift taking care of Earth's deepest problems
- To think the victim is at fault for being victimized (In truth this is sickening brainwashing from the occultists)
- Ignore the negative<sup>[17][18]</sup> (As long as the negative is ignored nothing will change)
- Meditate world peace into action (while the world burns)
- Promotion of the idea that there is no such thing as truth or knowledge, it’s all a matter of subjective opinion<sup>[17][18]</sup>
- The new age promotes alienation of the mind instead of learning it’s secrets
- Moral relativism is promoted in the new age, i.e. There is no right or wrong<sup>[17][18]</sup> (A Satanist ideology)
- The new age promotes the idea that an army of disembodied spirits are eating our emotions, and this is why there are obvious dark forces creating so much suffering. After coming to know the dark forces, it appears that the main allegorical truth to this is that the dark forces are sadists. Sadism: Enjoyment of cruelty: a taste for the suffering or psychological distress of another person<sup>[19]</sup>. Through brain-computer interface models of sadism someone metaphorically feeds off of the consciousness of a person.
- Indigo children (a wave of galactic starseeds to assist mankind) turned out to be millennials, if you think millennials are the gifted cosmic beings of the galaxy be my guest
- Thinking holding a belief in one’s mind will automatically change the mechanics of reality in one’s favor<sup>[17][18]</sup> (This is termed the law of attraction)
- Bastardization of modern spirituality
- Emphasis on a higher power taking action for you
- Misdirection related to correct actions in opposing the NWO
- Disinformation designed to discredit / contrast with deeper cosmic truths
- There are new age psychological operations objectives to disinform the world in the field of extraterrestrial information - bastardization of UFOlogy has occurred
- Demonization of end game technology - predictive programming of new agers aiming to divide population as much as possible with the coming neuro-tech revolution
- An assortment of old age and new age paradigms chosen & proliferated via the electronic control grid to enhance aspects of a New World Order agenda
- Predictive programming of both new agers and those who react to new age information
- New age set of beliefs is a New World Order engineered belief system - the global intelligence community's psyop brainchild
- There is nothing potent enough to be a one world religion: The new age set of psychological operations is the NWO planted “religion”
- New age religion engineered with all sorts of psychological pitfalls (e.g. solipsism, "everything is an illusion", apathy causing mindsets, infuriating when it's pointed at you kind of stupidity, etc)

- Acts as a dragnet to imprison people transcending old age engineered belief systems into a new covert technological influence friendly manipulation
- Predictively programs the masses regarding coming global first contact truths
- New Age disinformation that hits many birds with one stone (e.g. truth suppression, societal division / social engineering)
- Promotion of solipsism and/or "everything is an illusion" to obscure the idea that the truth exists (the truth is a threat to national security)

“An army of CIA AI based channelers pepper alt media with information warfare.” ~Omnisense

## The Covert Technology Side of the New Age<sup>[16]</sup>

- New age manchurian candidates - new age mind control assets infect the field of internet information (especially in the field of extraterrestrial information)
- New age cover stories exist for literally all black ops tech abilities
- Secret technology engineered events to persuade into the belief system
- Technological channeling mind control programs under cosmic disembodied spirit or deceased relative facades (Or anything the psyops crews could dream up)
- Remote influencing technology based psychological direction under a 'spiritual ability' disguise
- Black ops technology is being proliferated under a spiritual warfare cover story
- Creation of false messiahs with remote influencing technology
- Psychic nature is the perfect covert psychological direction cover story, it maximizes psychological direction potential while fully misattributing the source
- Astral projection is a perfect way to interact with someone under a neuroscience based virtual reality intranet disguise
- Remote viewing is a perfect way to implant a vulnerability to 3rd eye brain-computer interfacing
- Spirit possession is a perfect way to remain unseen while operating overtly with total individual control technologies
- The idea of a psychic attack obscures the true source (directed energy weapons)
- The cover story of 'ascension symptoms' is being proliferated to conceal electronic control grid activity
- The construct of the higher self is another perfect way to influence a target overtly while remaining unseen
- Psychic nature could be an equivalent of the monotheistic God mind control mechanism of the old age (God is another perfect psychological direction tool)
- Electronic telepathy / BCI is the perfect impersonation tool (e.g. cosmic being impersonations, gaia impersonations, RA impersonations, blue avian impersonations, any impersonation you can think of is possible)
- Natural telepathy is a new age paradigm strategically proliferated (e.g. To give BCI a cover story, to delude people about how revolutionary BCI truly is, to deceive about the nature of the universe, to deceive about the nature of extraterrestrials)
- Remote influencing technology under a "natural" remote influencing facade
- Manipulating of people's perception of their past lives (e.g. "reptilian starseeds")
- Promotion of the idea that "raising your vibration" disallows one to be mind controlled (complete and utter nonsense)
- Technological mind tricks of many types supporting of psychological operations via black project technology (Mandela effect psyops, time travel psyops, synthetic optics based psyops, powerful mind control)
- Invisible black project technology under an inter dimensional being / disembodied spirit cover story
- Black ops remote influencing tech used to create notions like ethereal implants and their removal to keep opposition in a continual loop of fruitless action
- More fruitless paths: use of notions like fighting in a synthetically produced tech based VR "astral realm" will help humanity defeat evil (e.g. Cameron Day)

Electromagnetic Mind Control Programs

- New age disinformation & many new age cover stories have been modeled after derivatives of black project science capabilities
- New Age Telepathic Impersonations: ascended masters, Ashtar, demons, jinn, shadow beings, RA, archangels, Jesus, holy spirit, God/Source, Gaia, extraterrestrials, inter dimensional Beings, Blue Avians, Pleiadians, reptilians, etc
- Directed energy weapon environmental manipulation with a "jinn" interaction cover story
- Artificial intelligence + electromagnetic weaponry engineered synchronicities
- New age mind control assets are rewarded by the electronic control grid (What I have called the dark law of attraction)

"New Age Psychological Operations are successful societal engineering attempts in that which a supernatural spiritual ability is central to the belief system. I believe a reason the black ops sources chose this flavor of psyop is it enables a supreme vulnerability to remote influencing technologies. Implanted v2k thoughts can be psychic ESP... end game virtual reality cognitions can be remote viewing. Synthetic dreams can be astral projection. Electronic harassment can be 'ascension symptoms' or 'psychic attacks'. Mind Control can be spirit possession or higher self. I believe all of these cover stories were engineered to be popular for their providing remote influence ease and concealment.[5]" ~Omnisense

"In the era of new age psychological operations there is an emphasis on controlled opposition in alt media. I have learned remote influencing technologies are rampant in the modern day turning targets into mind control asset false messiahs of sorts. It doesn't end there. This conspiracy also involves covertly engineered events with remote technologies to persuade into the belief system. After a few decades of constant societal digestion of mind control assets, and constant mind control programs aimed at persuading into the belief system, we have an engineered mass delusion of decently big proportions.[9]" ~Omnisense

"New age cover stories exist for literally all black ops technology abilities.[10]" ~Omnisense

"The New Age Belief System was engineered to be more bright and exotic than the truth, this creates a situation where if a fully programmed new ager was ever to stumble upon a good picture of the truth, it would seem underwhelming, ridiculous, or even like a psyop." ~Omnisense

## New Hi-Tech Generation of COINTELPRO

**In a Nutshell:** Government sources are using directed energy weapons and artificial intelligence to terrorize, threaten, intimidate, discredit, silence, torture, and murder dissidents. In addition, security contractors (among others) are being hired as military thugs to gangstalk targets<sup>[20]</sup>.

---

Zerzetsen: "Inflicting as much pain and suffering as possible without leaving any marks."<sup>[21]</sup> Directed energy weapon programs revolutionized this...

---

Counter-proliferation programs are intended to subvert the potentials of a target while punishing them with psycho-sadist techniques. The perversions of cointelpro are notable. The murderous and sadistic ethos of government counter-proliferation programs echos that of the Nazis and this perpetrator network of war criminals are committing sickening acts upon the global population.

- Synthetic suicide programming
- Technologically enabled serial killers with a taste for revolutionaries & activists

# Electronic Targeting Holocaust

"While all these traditional tactics have proven fruitful through out time without waning effectiveness, the agencies involved in extreme cover-ups prefer another tactic that seems to have withstood the test of time too. That is labeling someone "paranoid schizophrenic" or mentally ill. Once that label has been attached to someone, almost all testimony will be disbelieved. The military has employed this tactic since the 60's to get rebellious soldiers and others locked up in mental hospitals. But since the weapons testing of neurological disruptor technology has begun on the general population beginning in the early 60's and then stepped up to full throttle in 1976, the scope of what is considered mentally ill had to be reprogrammed into a broader definition for the general population." ~Department of Defense Whistleblower: From the Out of Print Book - The Matrix Deciphered

"My name is Dr. John Hall, I'm a medical Doctor from Texas. As a physician, relative to some of what you're hearing today, in the community we are seeing an alarming rate of complaints of use of electromagnetic weapons, microwave auditory effect, silent sound spectrum, EEG cloning,... Which has taken the lab out of the laboratory and into the home, most of these from the research that we've reviewed can be done remotely. It seems to be more weapons research than medical research. I've personally corresponded with upwards of 1,500 victims all complaining of identical complaints from every state in the nation. Of being exposed to electromagnetic radiation. Non-ionizing radiation. For the use of cognitive control or behavior control..." ~Anesthesiologist Dr. John Hall Speaking to the Presidential Bioethics Commission

"I am also targeted and this is my story. My name is Sandra Fields. I'm an architect, recipient of Who's Who of Women in America achievement award and have run a successful business for over 28 years. My life and livelihood have been compromised for the last 11 years by being attacked by electromagnetic radiation torture, and by organized stalking... Thousands of Americans are currently suffering from chemical, electromagnetic, psychological and physical torture with no government relief or laws. Our servicemen, prisoners, and thousands of unknowing innocent civilians are currently being lamed, tormented and tortured as a result of military research, medical research, pharmaceutical research, physiological and psychological studies that have virtually destroyed participants' sanity, physical well-being, reputation and privacy." ~Targeted Individual Sandra Fields, Speaking to Obama's Presidential Bioethics Committee

"What the governments found, was that you could induce by changing the pulse frequency like morse code of the microwaves going into the brain and interfering with the brain, by specializing on the pulse frequency you could induce psychiatric illnesses to the point where a psychiatrist could not tell if it is a genuine psychiatric illness or an induced psychiatric illness. So what you can do theoretically, is you can target an individual's brain, they may have auditory hallucinations where they hear things, which is actually quite common with microwaves. Or show signs of schizophrenia, for instance 6.6 pulses a second can induce severe sexual aggression in men. ... Technically what you could do is have someone committed to a psychiatric hospital or a jail for a crime, just by somebody saying that they had a psychiatric problem where by they didn't." ~Ex-British Royal Navy Scientist Dr. Barrie Trower

"They can cause insanity, and it was an experiment. One of the experiments was to take an ordinary sane person, cause insanity, and have a psychiatrist who was unknown to everybody diagnose schizophrenia, or paranoia or a psychiatric illness. That was a successful outcome. And the person would spend the rest of their life in an asylum in misery, but to the government scientists that was a success." ~Ex-Black Project Scientist Dr. Barrie Trower

"The war against satellite terrorism isn't just the USA. This is a global issue! Im in tropical Queensland Australia and get battered daily." ~Targeted Individual Amanda Emily Reed

## NeuroWeaponry & Artificial Intelligence Quotes

"The point of the program is to have maximum psychological effect and leave the minimal amount of evidence."<sup>[23]</sup> ~Anonymous Targeting Program Insider

"In 1985 CNN did a special report on radio frequency weapons. They hired an engineer who built an "RF Mind Interference" machine based on Soviet schematics. The machine successfully transmitted images into a CNN reporter's mind. The stunned engineer said that, given three weeks time, he could scale up the machine to use on a whole town, causing them to do things against their better judgement, see and hear things that weren't there, etc. The pentagon said it was too sensitive a subject to comment on. Remember, these effects were achieved by civilians over 30 years ago! One can speculate that they've made great advances in the past decades."<sup>[9]</sup> ~Targeted Individual Jim Hastings

"Through the effective use of cover stories sources like the CIA hide an abundance of technological effects on society under a plethora of various facades."<sup>[24]</sup> ~Omnisense

- Intelligence agencies are used for their ability to keep secrets, superior funding, national security excuses, lack of checks and balances, & propensity for criminal activity
- Electronic telepathy provides for no paper trail and relatively zero traceable roots
- Electronic control grid perpetrators conspire daily via electronic telepathy with electronic targeting cases & planning of new psychological operations
- U.S. Military heads in a network appear to be cruel and barbaric

- Electronic control grid sources harbor lunatic serial killer ideologies which are in use against the international civilian population via electronic warfare
- Militaristically psychopathic acts of terror, sadism, and cruelty are a norm
- Shadow government war criminals are known to practice BCI sadism<sup>[35]</sup> (e.g. cruel pain affliction with invisible technologies while the perpetrator interfaces the psychological distress of their victim with surveillance fed BCI tech)
- Shills in government, military, and media are complicit in the cover up
- Electronic control grid sources are in control of governments either wittingly or unwittingly through persuasion, coercion, and/or covert electromagnetic mind control
- There are powerful serial rapists within the electronic control grid pyramid
- There is a focused agenda to incriminate as many people as possible with this conspiracy, they want more company for a sinking ship
- There are signs of opposition coming from inside Russia's network (This is a potential reason for the ruling class to orchestrate proxy attacks against Russia)
- Electronic control grid sources have strategically used deceptive rationalizations to curtail the public domain implementations of these technologies

“When I worked [at the NSA 1982-2010] I had no idea that there was an über-evil, anti-American side to NSA. Everything is highly compartmented... this protects secrets but of course is a perfect environment in which to hide elaborate criminal activity, especially when the NSA Security as well as other watch dog organizations were compromised in preparation for crimes of unfathomable reach and scope.<sup>[36]</sup>” ~Karen Melton-Stewart
